

# LPG Safety Tips

Follow these LPG safety tips and have a safe and enjoyable cooking experience with *True Blue* Esso Gas!

## Buying your LPG cylinder

- Always buy your LPG cylinders from authorised LPG dealers only.

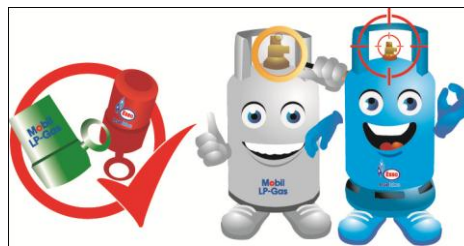

## Receiving your LPG cylinder

When the LPG cylinder is delivered to your home, please:

- Check to ensure that the LPG cylinder bears our *True Blue*<sup>™</sup> Esso Gas or Mobil LP-Gas logos.

- Check that the genuine Esso Gas/Mobil LP-Gas seal is present and intact. Do not accept the LPG cylinder if the seal is broken.

- Request that the LPG delivery man performs the **five-point safety check** required by the SCDF (Singapore Civil Defence Force) as follows:
  - **Regulator:** Check the regulator to ensure it is not worn out or expired. Change the regulator every five years. Use only regulators with the Safety Mark endorsed by SPRING Singapore.

- **Rubber Hose:** Check the rubber hose to ensure it is not worn out or expired. Change the rubber hose every two years. Use only hoses endorsed by SPRING Singapore.

- **Hose Clips:** Check the hose clips to ensure that they are in good working condition and properly secured.

- **Cylinder:** Check the LPG cylinder for cracks.
- **Leak Test:** Check for gas leaks by applying soap solution on cylinder joints. The appearance of soap bubbles will indicate a leak point. Do not use an open flame to detect leaks.

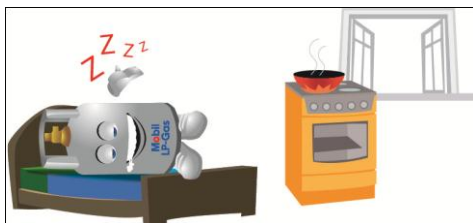

## Cooking with LPG

- Keep windows open to ventilate your kitchen.

- Do not place flammable or plastic items near the flame.
- Turn pan handles away from the flame.
- Never leave your cooking unattended.

## Storing your LPG cylinder

- Always keep the LPG valve or regulator switched off when your gas stove or oven is not in use.
- Always store the LPG cylinder in an upright position.
- Always store the LPG cylinder away from other combustible and flammable materials. Store no more than one spare LPG cylinder at any given time.
- Always ventilate your LPG cylinder storage area.
- Never tamper with your LPG cylinder.

To order a **True Blue** Esso LPG cylinder, call **1800-266-2828** or your nearest **True Blue** authorised dealer now!
