I- Increase

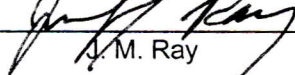

*Note: Sadlerochit Petroleum is any petroleum delivered to Carrier from the Sadlerochit Formation in the Prudhoe Bay Unit. Lisburne Petroleum is any petroleum delivered to Carrier from the Lisburne Formation in the Prudhoe Bay Unit. Kuparuk Petroleum is any petroleum delivered to Carrier from the Kuparuk Pipeline. Endicott Petroleum is any petroleum delivered to Carrier from the Endicott Pipeline. Northstar Petroleum is any petroleum delivered to Carrier from the Northstar Oil Pipeline.

The foregoing rates were prepared in part through the use of Pumpability Factors of 1.000.

In the event that the Pumpability Factor methodology used to calculate ExxonMobil Pipeline Company rates is overturned or modified, ExxonMobil Pipeline Company expressly reserves the right to seek surcharges equal to the difference between what shippers should have paid under the methodology ultimately approved by the Commission and any reviewing courts and the amount shippers actually paid under the rates set fourth herein.

The rates indicated above are exclusive of any demurrage or other charges shown in ExxonMobil Pipeline Company's FERC Tariff (see Sheet No. 10) and any amounts that Carrier is required by any applicable law or regulation to collect. No gathering service will be performed by Carrier.
