

---

**FACILITY:** The main office is located at 4045 Scenic Highway, adjacent to the Mississippi River.

**LAND AREA:** About 2,100 acres, including nearby tank farms.

**PRODUCTION:** 503,500 barrels/day of crude oil capacity, making it the second largest refinery in the United States.

**WORKFORCE:** At year-end 2010, there were 1,299 employees and 900 contractors.

**PAYROLL:** Annual payroll in 2010 was approximately \$190.7 million.

**TAXES:** Annual property taxes in 2010 totaled over \$16.8 million and \$1.1 million in franchise state taxes.

**PURCHASES:** Annual purchases of goods and services from merchants and suppliers in 2010 totaled \$354.5 million.

**PRODUCTS:** The Refinery manufactured about 300 products and grades of products, including the following:

Motor Gasoline

Diesel (trucks, buses, autos, trains, boats, heating, tractors, power generation)

Jet fuel (jet airliners, military jets)

Aviation gasoline (propeller aircraft)

Lubricating oils (engine oils, transmission fluid, chain saws)

Waxes (makeup, candles, crayons and gum)

Petroleum coke (furnace fuel, anodes for the production of aluminum)

Liquefied petroleum gas (heating, cooking, refrigeration, tobacco & grain drying, soldering, chemical feedstock)

Chemical feedstock (raw material used in the production of various chemicals)

**AWARDS:** During 2009, the Refinery received the following Safety Awards:  
ExxonMobil Refining & Supply President's Safety Award  
National Petrochemical & Refiners Association Achievement Award - Hours  
National Petrochemical & Refiners Association Meritt Award

**SOURCES OF CRUDE:** U.S. crudes, including Louisiana, Gulf of Mexico and Alaska North Slope. Foreign crudes include Mexico, North Sea, West Africa, South and Central America, Canada and the Arabian Gulf.

**HISTORY:**

- 1909: Refinery began operations as part of Standard Oil Company of Louisiana, with 1,800 barrels per day capacity on 225 acres in former cotton fields north of Baton Rouge (pop. 15,000).
- 1909-1940: Fuel products only (no chemicals).
- 1940: Chemical Products Division began as part of refinery.
- 1944: Standard Oil of Louisiana merged into Standard Oil Company of New Jersey, an operating arm of Standard Oil Company (NJ).
- 1948: Standard Oil of New Jersey changed name to Esso Standard Oil Company of New Jersey.
- 1959: Esso Standard Oil Company merged into Humble Oil & Refining Company.
- 1966: Chemical plant transferred to new company -- Esso Chemical.
- 1972: Standard Oil Company (NJ) became Exxon Corporation; Humble Oil became Exxon Company, U.S.A.
- 1973: Name became: Exxon Company, U.S.A. - (Baton Rouge Refinery).
- 1999: Exxon merged with Mobil to become Exxon Mobil Corporation; Exxon Company U.S.A. became ExxonMobil Refining & Supply.
