Rotterdam is ready | May 2019

On-spec production has [begun on time](#) at ExxonMobil's expanded Rotterdam refinery, bringing the first ever world-scale production of Group II base stocks in Europe. Construction began in 2016, and since then ExxonMobil has invested more than \$1 billion in the project which allows increased capacity and improved supply reliability, and enables cost-effective blending for lubricant innovators globally with our advanced EHC™ 50 and EHC™ 120 base stocks.
