

ExxonMobil now official lubricant supplier for Malaysia Airlines

Malaysia Airlines selects Mobil Jet™ Oil 387 as part of its fleet modernization program

About Malaysia Airlines

Proudly operated by Malaysia Airlines Berhad since September 2015, Malaysia Airlines offers premium, full-service travel and is part of the Malaysia Aviation Group (MAG). As a member of the oneworld® Alliance, the airline offers connectivity to over 900 destinations across 170 territories, supporting global travel with a growing fleet.

A new milestone

Malaysia Airlines selected ExxonMobil Aviation Lubricants for its fleet, including both its Airbus and Boeing aircrafts. This move is part of the airline’s broader fleet modernization program and dedication to enhancing fleet reliability and operational performance

Malaysia Airlines’ recent introduction of a second A330neo marks a significant milestone in its path forward. As the engine oil of choice for this new fleet, Mobil Jet™ Oil 387 meets the SAE AS5780 High Performance Capability (HPC) standard. This advanced oil is formulated for modern, high-output engines such as the Rolls Royce Trent 7000 engines on the A330neo. It offers excellent thermal and oxidation stability and elastomer compatibility, helping to prevent deposit formation and oil leaks, while also ensuring smooth, efficient engine operation.

Focused on performance

Malaysia Airlines and ExxonMobil share the same focus.

“Malaysia Airlines is committed to upholding the highest standards of safety, reliability and performance,” said Captain Nasaruddin A. Bakar, Chief Operating Officer of Malaysia Airlines. “In line with this commitment and to best support our expanding fleet, we have made a strategic decision to work with ExxonMobil, a company recognized for its consistent reliability and performance.”

“This partnership underscores our commitment to delivering advanced lubrication solutions that meet the evolving needs of our valued customers. We look forward to supporting Malaysia Airlines in enhancing their fleet performance and operational efficiency.,” said Adrian Foo, AP Aviation Lubricants Director, ExxonMobil Aviation.

“We have made a strategic decision to work with ExxonMobil, a company recognized for its consistent reliability and performance.”

- Captain Nasaruddin A. Bakar, COO of Malaysia Airlines
