Issue 5 | September 2018

Since our last issue we've seen more exciting news of investment in our facilities and supply network. As the Rotterdam refinery expansion project draws to an on-time start-up, we have a significant logistics announcement to make. At the end of June, we announced a further proposed multibillion-dollar base stocks project at our Singapore refinery facility.

This August marked a year since the tragic events of Hurricane Harvey, and [we're reflecting on the challenges faced, the cleanup effort and the planning involved in preparing for any situation that could have an impact on our operations.](#)

In the spotlight

See [the latest installments of our video series](#), which offers behind-the-scenes insights on the Rotterdam refinery expansion project. In these episodes, Rob Sherman – global supply chain manager – discusses the challenges in building a robust and reliable supply chain, and Eric Joseck – lead process engineer – provides his perspective on seeing the project move from the concept phase to actualization.

Announcement - June 2018

Further Singapore refinery investment

ExxonMobil announced a proposed multibillion-dollar investment in Singapore to increase production of higher-quality base stocks and to introduce a new, unique high viscosity Group II product into the marketplace.
